PROFESSIONAL SUMMARY

Data Analyst with 9 months of internship experience and 4 end-to-end analytics projects built on large datasets (135,000+ hospitality records, 100,000+ Amazon orders, 10,000+ patient records). Skilled in SQL, Power BI, Python, Excel, and Tableau, with a proven workflow from raw data cleaning to KPI dashboards that support business decisions. Experienced in using Generative AI to summarize trends and draft business insights, and in building automated Excel dashboards with VBA. Strong in requirements gathering and in explaining findings in plain business language.

CORE SKILLS

- Languages & Querying:** SQL (joins, subqueries, CTEs, aggregations, GROUP BY/HAVING, window functions); Python (Pandas, NumPy)
- BI & Visualization:** Power BI (DAX, Power Query, data modeling), Tableau, Excel (pivot tables, XLOOKUP/VLOOKUP, Power Query, VBA automation)
- Analysis:** Data cleaning, exploratory data analysis, KPI tracking, trend analysis, root-cause analysis, business reporting, requirements documentation
- AI & Automation:** Generative AI for business insight generation, AI-assisted dashboard building with Excel VBA
- Statistics:** Descriptive statistics, basic probability, correlation

PROFESSIONAL EXPERIENCE

Data Analyst Intern, ExcelR | Bengaluru, India

Oct 2025 – Jul 2026

- Cleaned and analyzed insurance and hospitality datasets using SQL, Excel, Power BI, and Python to surface trends used in team reporting.
- Built interactive Power BI dashboards end to end, covering data cleaning, DAX measures, data modeling, and KPI visualization.
- Supported recurring business reports with SQL queries and Excel analysis.

PROJECTS

Amazon Sales Analysis & GenAI-Powered Business Insights

SQL | Python | Excel | Power BI | Generative AI

- Analyzed 100K+ orders and 43K customers to evaluate sales trends, customer behavior, and product performance.
- Built an interactive KPI dashboard tracking \$91.02M revenue, 100K orders, 300K units sold, and 43K customers.
- Used SQL and Python for analysis, and Generative AI to summarize trends and generate business insights for decision-making.
- Built AI-assisted Excel dashboards with VBA to automate reporting.

Hospitality Revenue Analytics Dashboard

Excel|Python|SQL | Power BI | Tableau

- Analyzed 135,000+ hospitality records to evaluate revenue, bookings, occupancy, and operational performance.
- Built KPI dashboards tracking Revenue, RevPAR, ADR, Occupancy Rate, Cancellation Rate, and booking trends.
- Identified revenue and booking patterns across properties, room categories, and booking platforms to support performance-focused decisions.

Healthcare Analytics Dashboard

Excel|Python|SQL|Power BI | Power Query | DAX

- Analyzed 10,000+ patient records to evaluate patient, treatment, department, and revenue performance.
- Built DAX measures for Revenue (\$25.4M), Average Treatment Cost (\$524.7), and Follow-up Rate (49.84%).
- Developed an interactive dashboard surfacing department-level trends, diagnosis patterns, and revenue drivers.

EDUCATION

Master of Computer Applications (MCA)

2023 – 2025

St. Aloysius Institute of Management and Information Technology, Mangaluru

Bachelor of Computer Applications (BCA)

2020 – 2023

Gurudev Arts and Science College, Kannur

CERTIFICATIONS & PUBLICATIONS

- NASSCOM Certified Data Analyst, Apr 2026
- ExcelR Data Analyst Internship Certificate, May 2026
- Publication: "Emotion Detection Using NLP"
